Subject: Unacceptable Microsoft Settlement Terms.

Dear Ms. Hesse:

The proposed settlement in the Microsoft anti-trust case is completely unacceptable. It is particularly disturbing that the settlement seems to be little more than a sales contract for Microsoft products in the schools, while exempting their anti-competitive behavior from sanction. It is little wonder that Judge Jackson was infuriated with the behavior of this company.

I urge you to work for a more substantial penalty for Microsoft, one that would be fair to everyone, both to their competitors and, more importantly, to the American public.

Thank you for your time.

Sincerely,
Michael Tesch
